

# Come On

Written by Raza & Zia. Composed, Arranged, Produced & Engineered by Raza

Hey listen to me girl I've fallen for you  
Every word I say, is all about you yeah!

You're the light in my world, yeah girls it's true  
You're the love of my life, yeah I need you  
When I see you next to me, I get the feeling you're mine  
And all the time girl, I'm feeling so fine yeah!

So don't say no!

I'm always gonna be a part of you yeah!  
Oh tell me girl when will you be mine

Come on

You are in my dreams, you make my world so new  
You're living in my thoughts, I'll never make you blue yeah!

I wanna love you girl every night and day  
I wanna make you happy girl in every way  
I'm in love with you baby, my heart longs for you  
You are the treasure of my soul all my world is you

**Repeat \***
