

# Dr Love

Written, Composed, Arranged, Produced & Engineered by Raza

Come to me, when you are feeling down  
Heart is broken and the passion is gone  
What you see is the darker side  
All you need is some words of advice

\*

I can take you to the place where you feel love yeah! yeah!

Chorus

Come to me, come to me, come to me, come to me  
I'm Dr Love

You took your chances, for your romances  
And never thought that you would end up this way Yeah!  
So now you know that, love has no fences  
It's just so wild you can shape it any way

You thought that love was born in your mind and in your soul  
But it's so hard to find another soul to play the role  
I'll give you 100% satisfaction guarantee  
You won't need another to feel your soul with harmony  
Repeat \*

I touch you slowly and we bring in the night  
As we get closer we can turn off the light  
You can feel the ecstasy  
My exotic ways will capture thee

There ain't no sadness in what we have to feel  
Repeat Chorus
