

Funky Day

Written, Composed, Arranged, Produced & Engineered by Raza

When I got to know you, I stopped feeling blue
I started to enjoy every season that's true!
No one can do, what you really could
When music was not in me, life wasn't so good

Come on and look at me, look in my eyes what you see
With you my day is bright, don't wanna leave your sight
I wanna boogie with you, I wanna sing with you
I wanna shout with you, all I want to have is a good time with you

Ooh it's a funky day

When I feel lonely, I turn to you
Music you're the only, has love so pure
Beating in my heart, living in my soul
Don't you know my music, you're my heaven's door

Ooh you make my funky day

Get in the groove with you, and do the move with you
Who ever is on the street, can dance to my funky beat

Ooh it's a funky day

Ooh you make my funky day(coming on to me my music)
Ooh you make my funky day(coming on coming on)

I wanna boogie with you, I wanna sing with you
I wanna shout with you, all I want to have is a good time with you

Hmmm wanna check out my guitar

Ooh it's a funky day
