Oh my God what a beautiful scene  
Here are the greyhounds that I saw in my dreams  
I'm sassified with their looks and their charm  
You know you are the one, you know you make my gun

I'm trying hard to forget my past  
And trying to live a better life in the west  
It's been quite an experience for me  
And I am almost there, I am setting me free

I can take you out tonight  
We can have some fun alright  
And you know I am getting there  
I'll fill you tonight

Get on Get on slowly  
Greyhound, Greyhound baby  
Move on Move on lowly  
You know what we wanna do

Get on Get on slowly  
Greyhound, Greyhound baby  
Move on Move on lowly  
You know what we gotta do

I had that thing I couldn't get over that  
I put the "p u s s y" on pedestal and had  
Wonder why I wouldn't get all that fun  
I was getting it right, so wasn't getting the fun

Then I flew to this land at last  
Got out and got me crashed  
Woke up in my bed with you girl  
I filled you tonight
