

# Kiss

Written, Composed, Arranged, Produced & Engineered by Raza

Kiss you under the mistletoe, mistletoe  
Kiss you under the mistletoe

I kiss you when you're feeling hot  
I kiss you when you're feeling not  
I kiss you when you're driving in your car

I'll kiss you there you wanna bet  
I'll kiss you there until you're wet  
I kiss you kiss you there until I take your breath away

Oh when I walk in the middle of the night  
It feels so good when you're right by my side  
And I hear the chimes ringing

Oh I give a toast to this night of joy  
And maybe fly for a drink to Illinois  
Though I know what I wanna do now

Kiss you under the mistletoe, mistletoe  
Kiss you under the mistletoe, I miss you so

I kiss you when you're feeling hot  
I kiss you when you're feeling not  
I kiss you when you're driving in your car

I kiss you when you take a shot  
I kiss you when you're 1000 watt  
I kiss you kiss you when you're in your lingerie

Oh! I feel like hanging down a chandelier  
After I had a couple too much beer  
I don't care what I do

Oh! Tonight's the night I wanna rejoice  
Turn the music up load and make a noise  
We dance the night, and you know what I'll do now
