

# Loose Control

Written, Composed, Arranged, Produced & Engineered by Raza

The way you move your hips  
On the dance floor Girl  
Under the shining lights  
You be my pearl

Electrifying my body  
Control my soul  
Tonight you'll be my girl  
I'll make you unfurl

I want to know  
If you are up for a ride  
And that you know I can make you scream tonight  
And all this time  
You know what you were missing  
I'll take you on, all through the night

Hold you baby  
I bring you close  
Close to my body  
We loose control  
We take our time  
To cross that line  
But when our bodies touch  
We loose control

The way you use your lips  
You rule my world  
Magnifying the pleasures  
Make me consoled

Liquidate intentions  
A deceiving goal  
No misunderstood conceptions  
We both extol
