

THE UNIVERSAL DREAM

Written, Composed, Arranged, Produced, Engineered by Raza. Rap written by Valentino

Verse 1

Smiling faces bright eyes
New idea new ways
You can always count on
Our loving ways
We're living the freedom
We're living the peace
We're living the hope
And we're living the dream

Chorus

We are the children of Utopia
We are tomorrow and today
One thing we all believe in
That love is here to stay
We are the hope, we are the dream
Oh yeah! We're sailing on a stream
Of love and harmony
Is the Universal Dream

Spoken:

Love in our hearts, love in our souls
No matter what goes on
The story's been told
Love in the air, I want you to dare
To know how we are
And how much we care

Verse 2

Thanks to heaven
And the stars above
You gave us this world
And blessed us all
No pain no sorrow
We promise for tomorrow
To make a better day
And make a better way
(We are we are) **Repeat Chorus**

Rap

Love is the key to happiness
Lord wrap your arms around my soul
you shine so bright, you gave me life
So I think I'll never let you go
And I just wanted you to know that
Your children are so beautiful
Look around and see all the boys and girls
And I think It's time for us to change the world
All we need is to believe
The King once said I have a dream

Lets all hold hands and start to sing
And we can change our destiny
So much pain and so much rain
But I think it's time to make a change
The sun shine on our smiling face
Tomorrow will be a brighter day **Repeat Chorus**
